

How to Configure Multifactor Authentication Settings

1 Navigate to entra.microsoft.com

2 Click "Multifactor authentication"

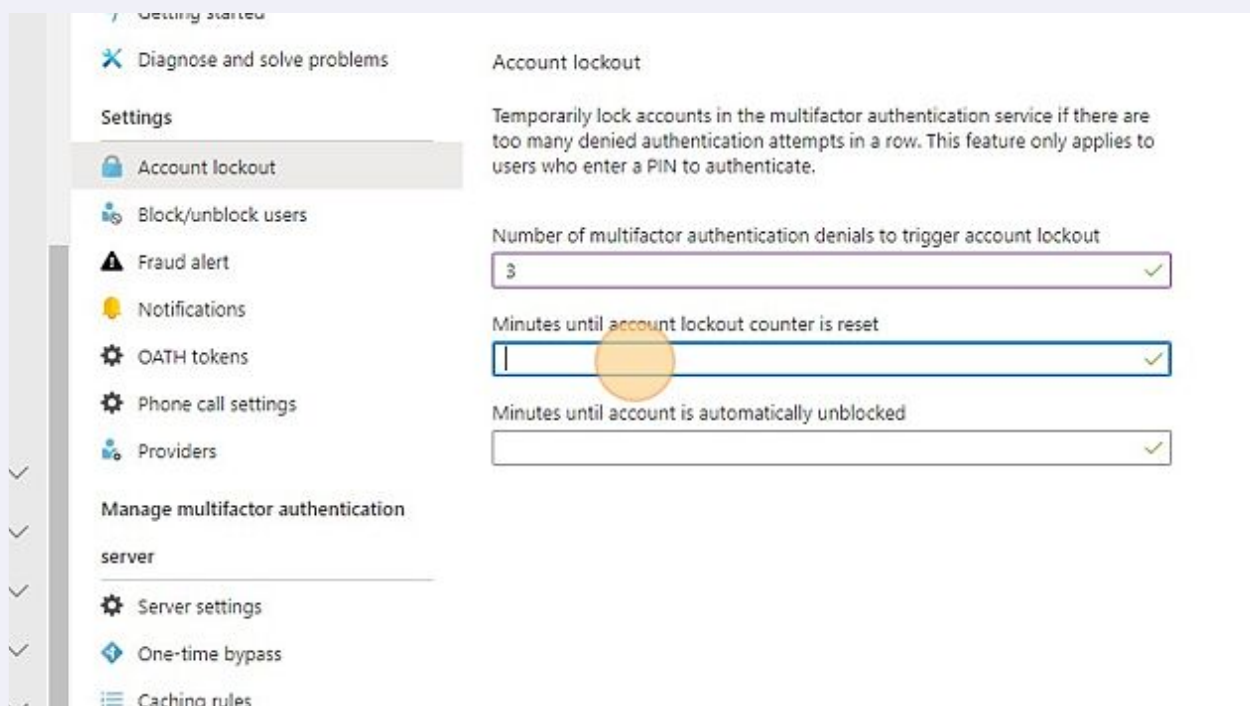

3 Click "Account lockout"

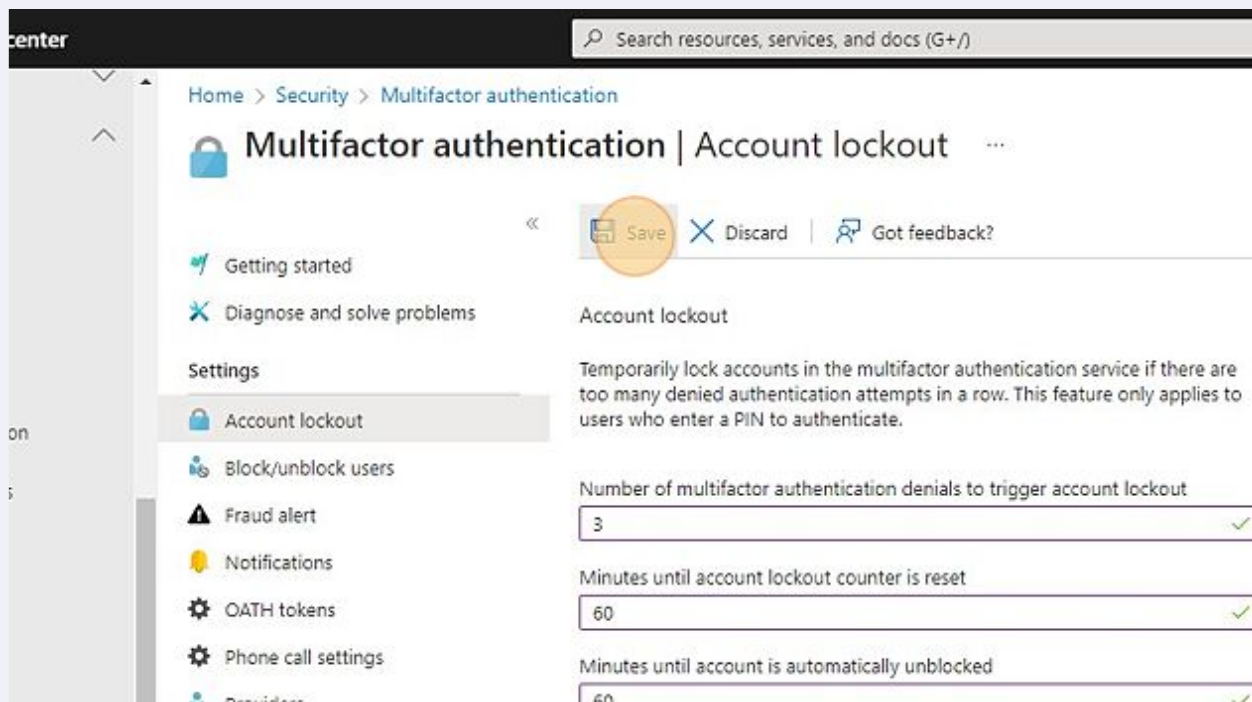

4 Set the lockout threshold to "3"

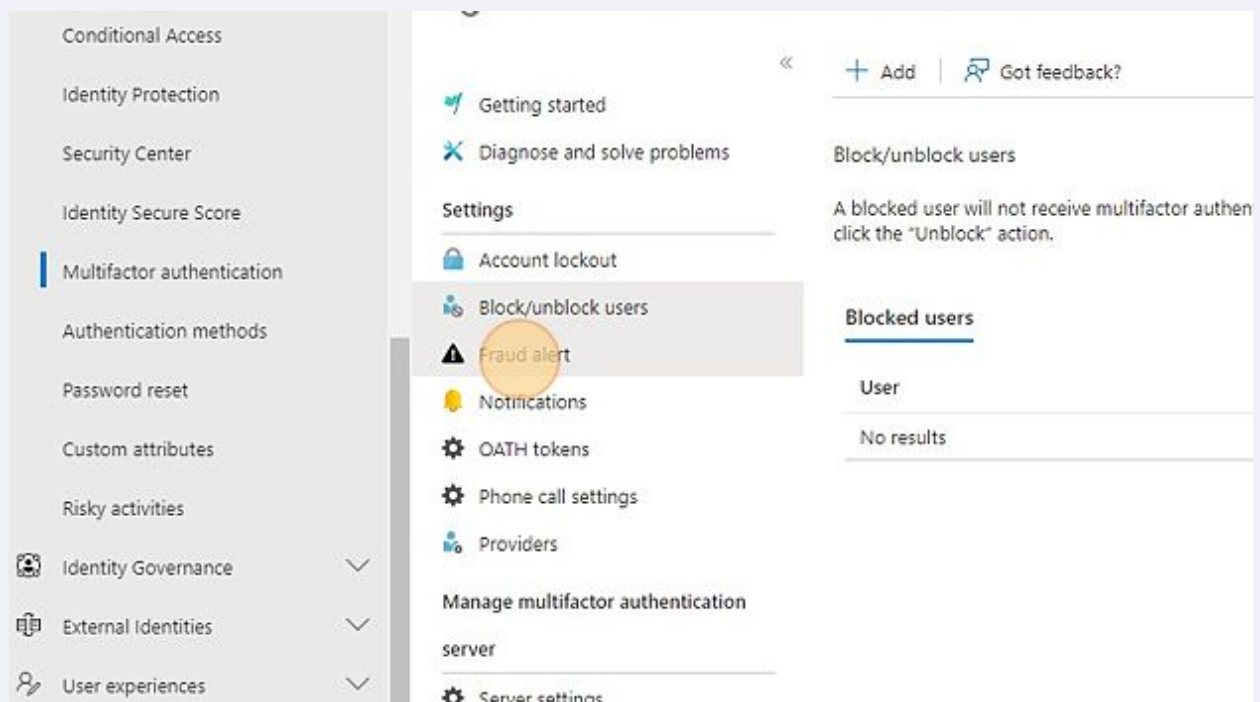

Set the other values to your preference.

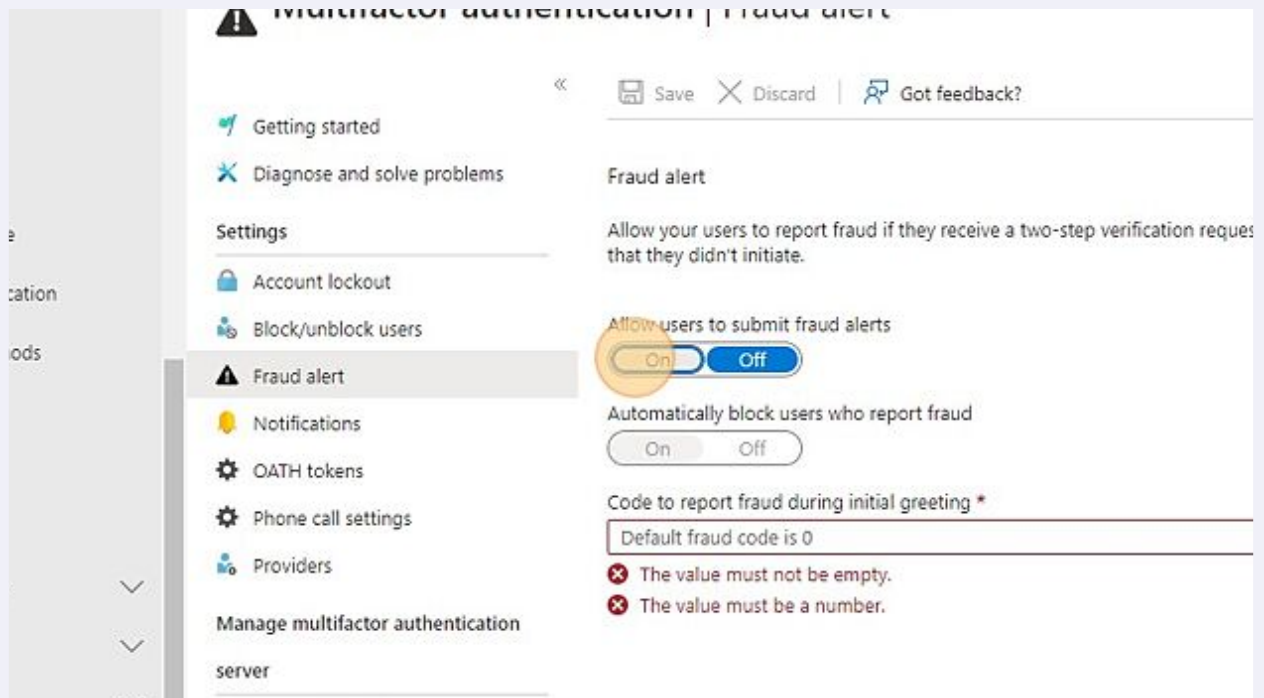

5 Click "Save"

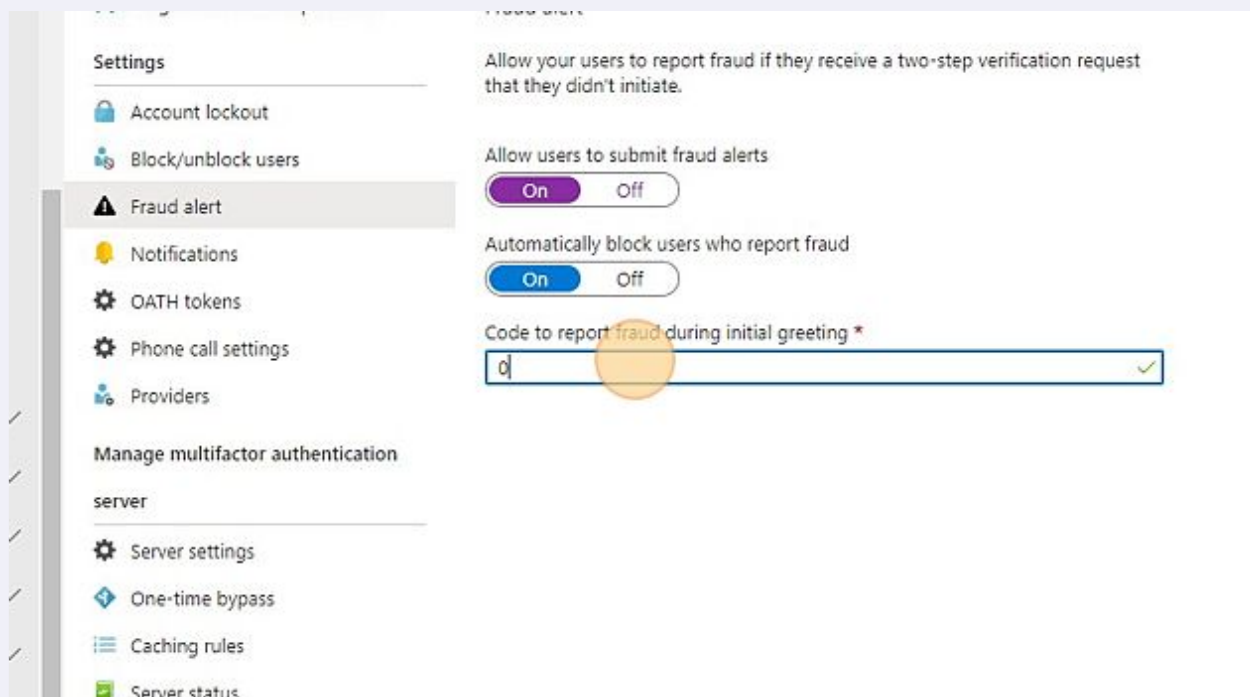

6 Click "Fraud alert"

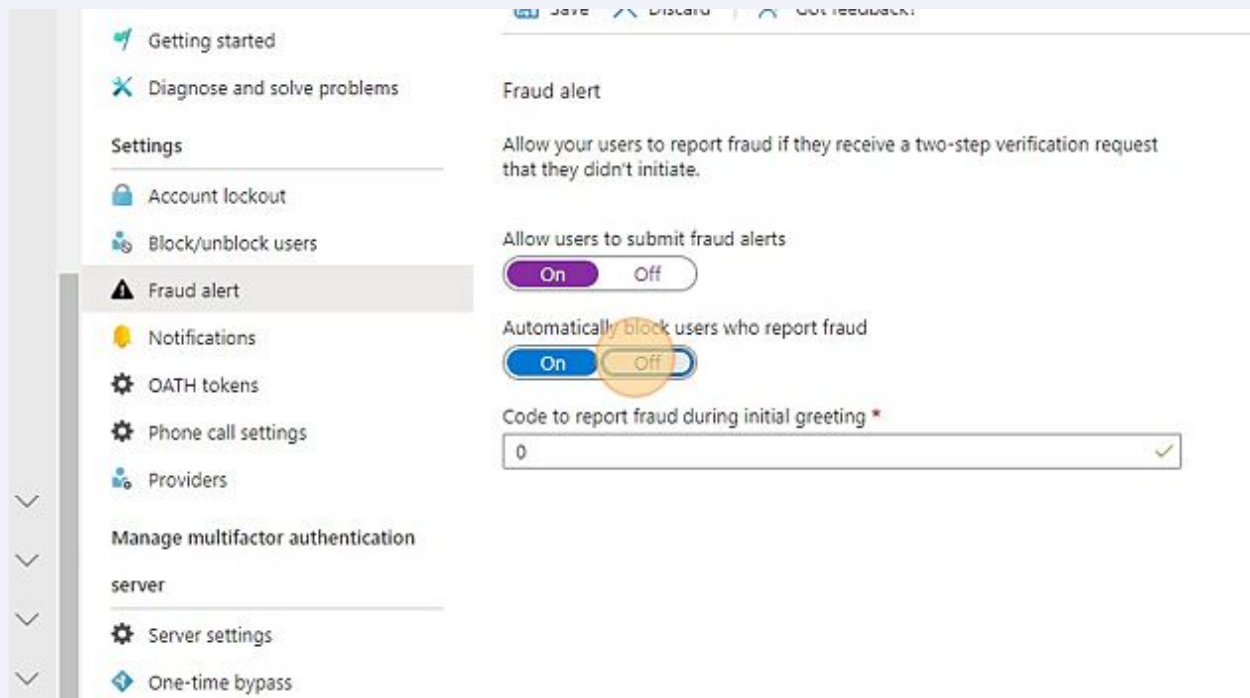

7 Turn "Allow users to submit fraud alerts" to "On"

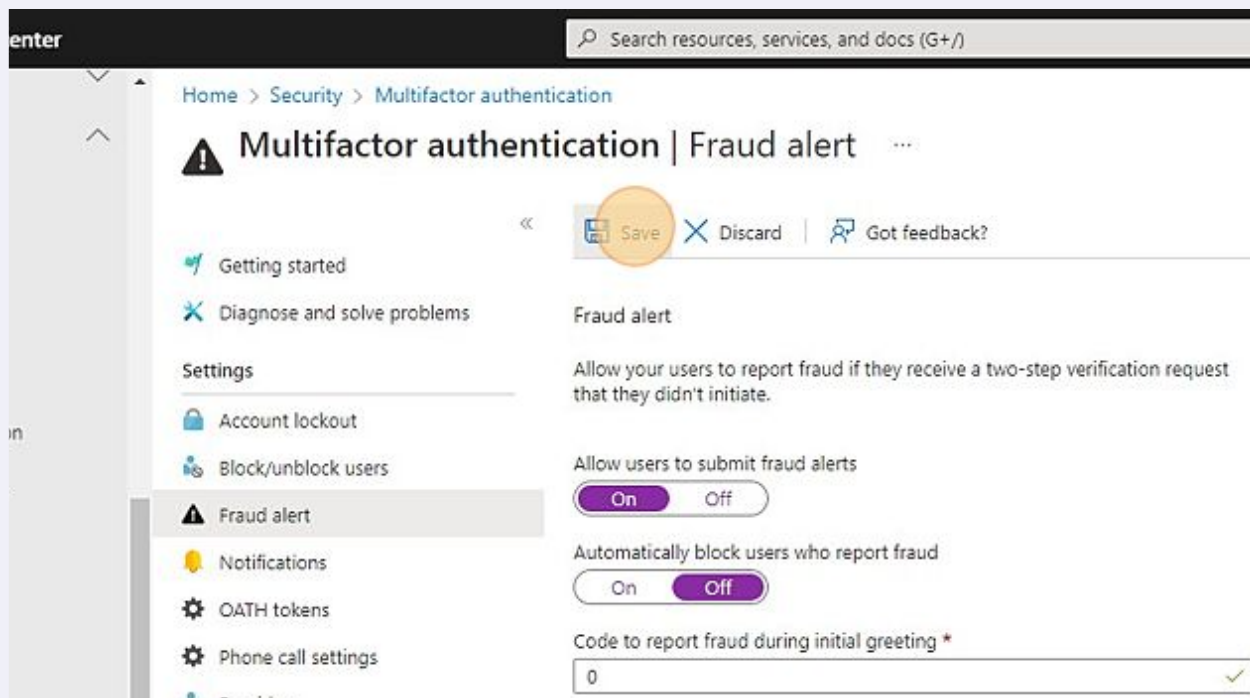

8 Click the "Code to report fraud during initial greeting" field.

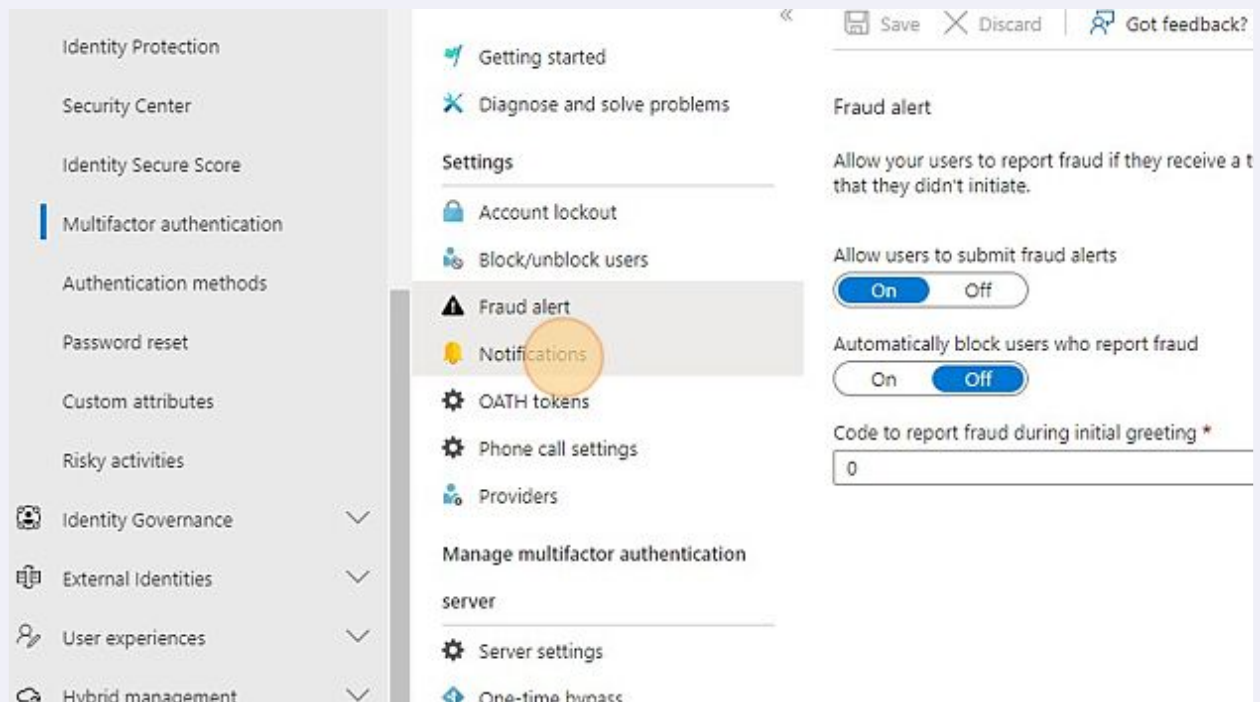

9 Turn "Automatically block users who report fraud" to "Off"

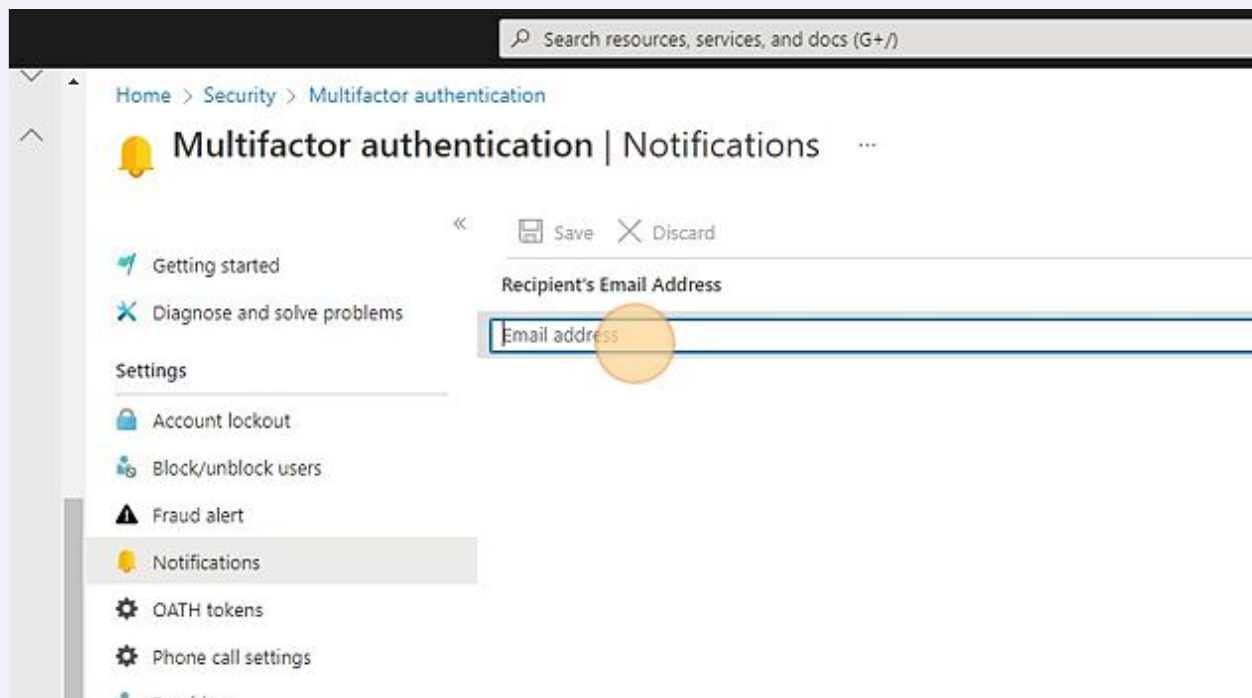

10 Click "Save"

11 Click "Notifications"

12 Click the "Email address" field and enter the email address that alerts should go to.

13 Click "Save"
