## 11 Click "Create"

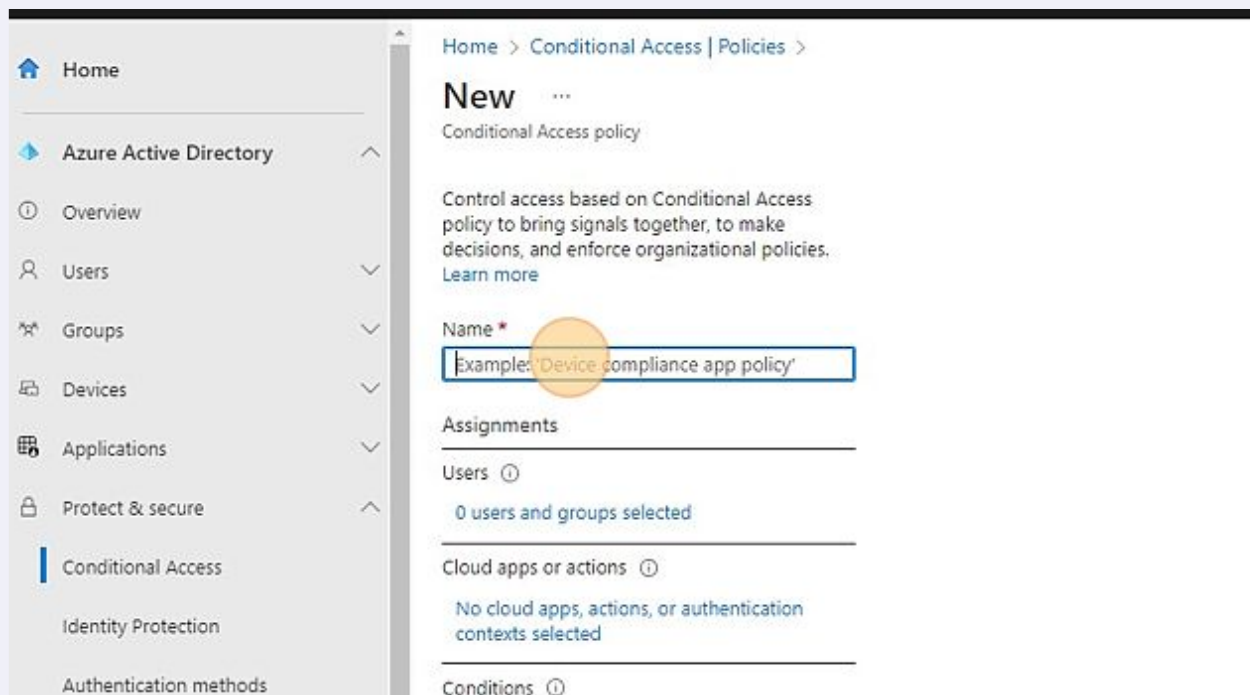

## 12 Click "Policies"

13 Click "New Policy"

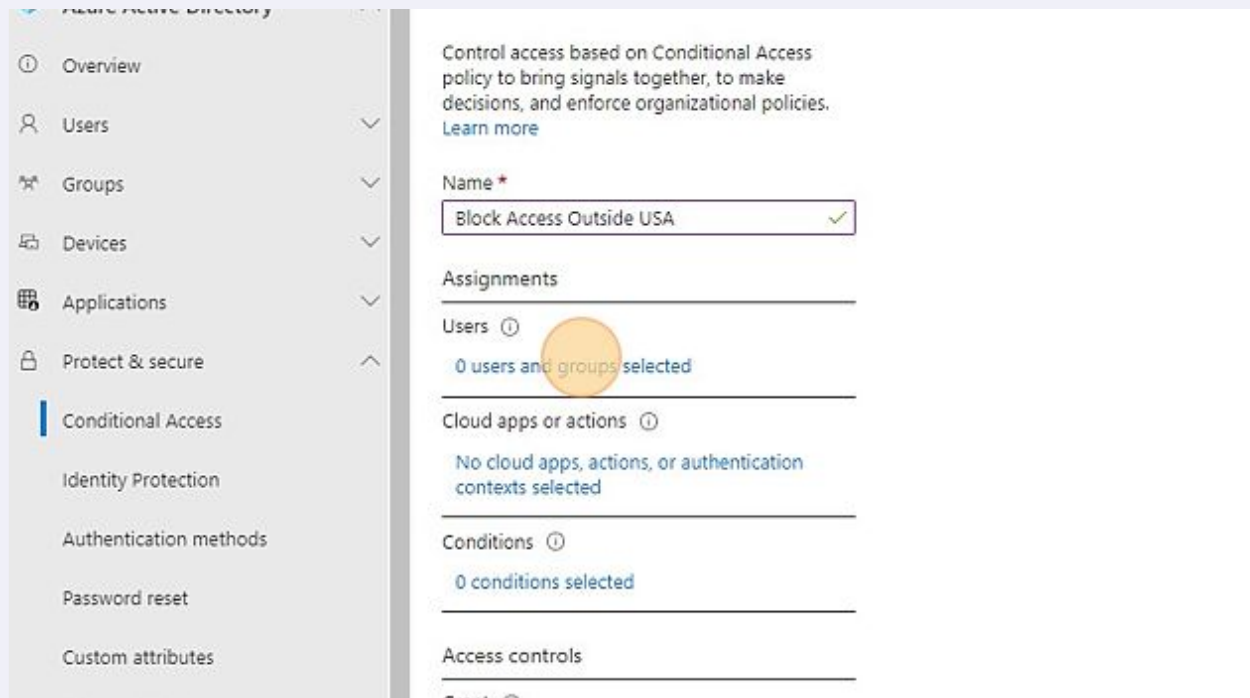

14 Enter "Block Access Outside USA" in the "Name" field.

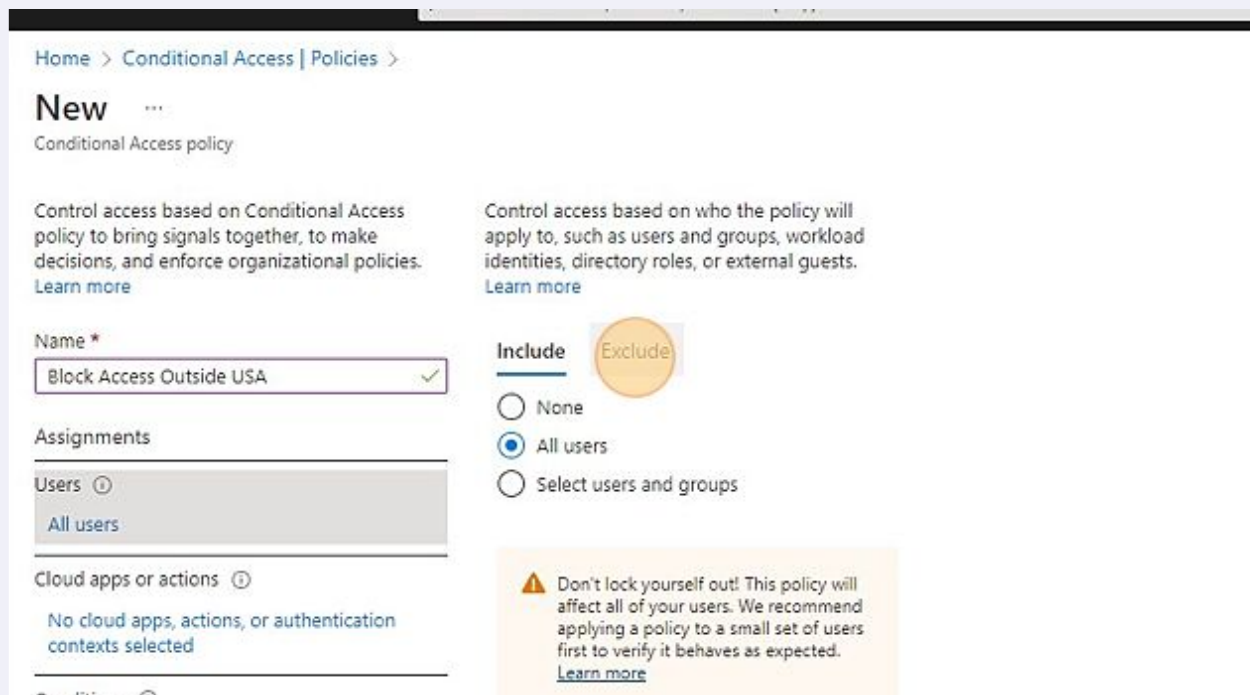

## 15 Click "Users"

## 16 Include "All users" and exclude your Break Glass Admin.

## 17 Click "No cloud apps, actions, or authentication contexts selected"

The screenshot shows the Azure Conditional Access policy configuration page for a policy named "Block Access Outside USA". The left sidebar contains navigation links for Groups, Devices, Applications, Protect & secure, Conditional Access, Identity Protection, Authentication methods, Password reset, Custom attributes, Risky activities, and Identity Governance. The main content area is divided into sections: Name (Block Access Outside USA), Assignments (Users: All users included and specific users excluded), Cloud apps or actions (No cloud apps, actions, or authentication contexts selected), Conditions (0 conditions selected), Access controls (Grant: 0 controls selected), and Session. On the right, there are tabs for Include and Exclude. Under the Exclude tab, there are checkboxes for Guest or external users, Directory roles, and Users and groups (which is checked). Below this, there is a section for "Select excluded users and groups" showing 1 user: Azure.BreakGlass.Admin.
